Alectoria ochroleuca & nigricans

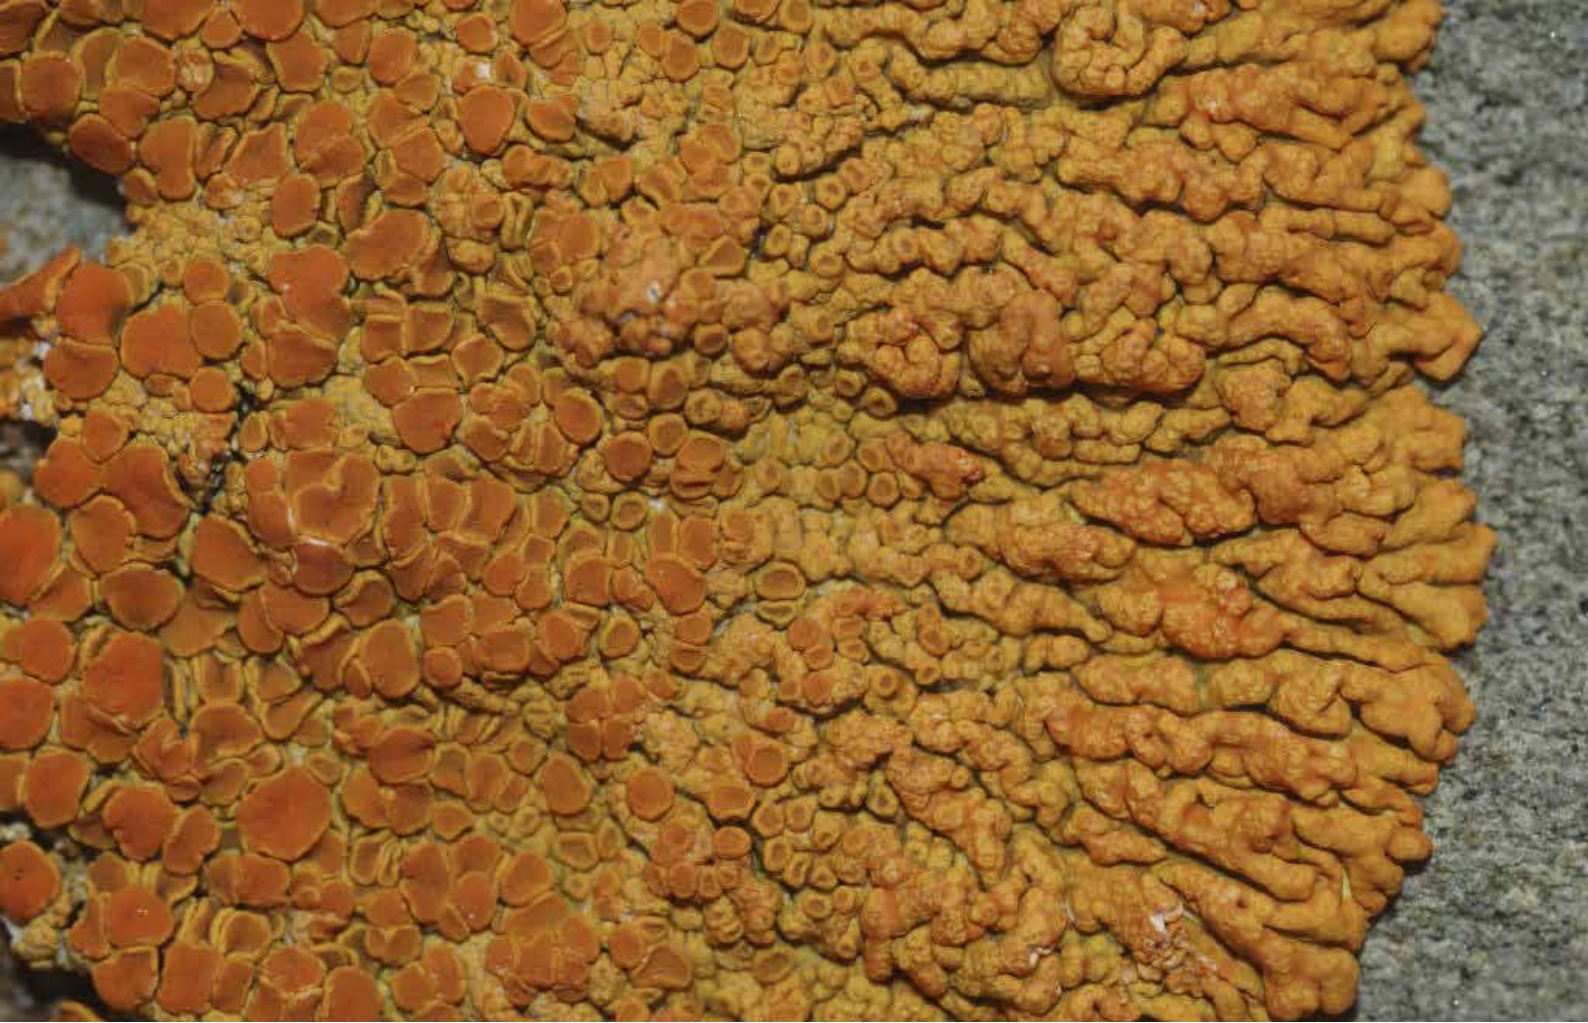

Aspicilia caesiocinerea

Brodoa intestiniformis

Caloplaca arnoldii

Caloplaca elegans

Caloplaca nubigena

Caloplaca saxicola

Caloplaca sinapisperma

Cetraria ericetorum

Cetraria islandica

Cladonia bellidiflora

Cladonia rangiferina & arbuscula

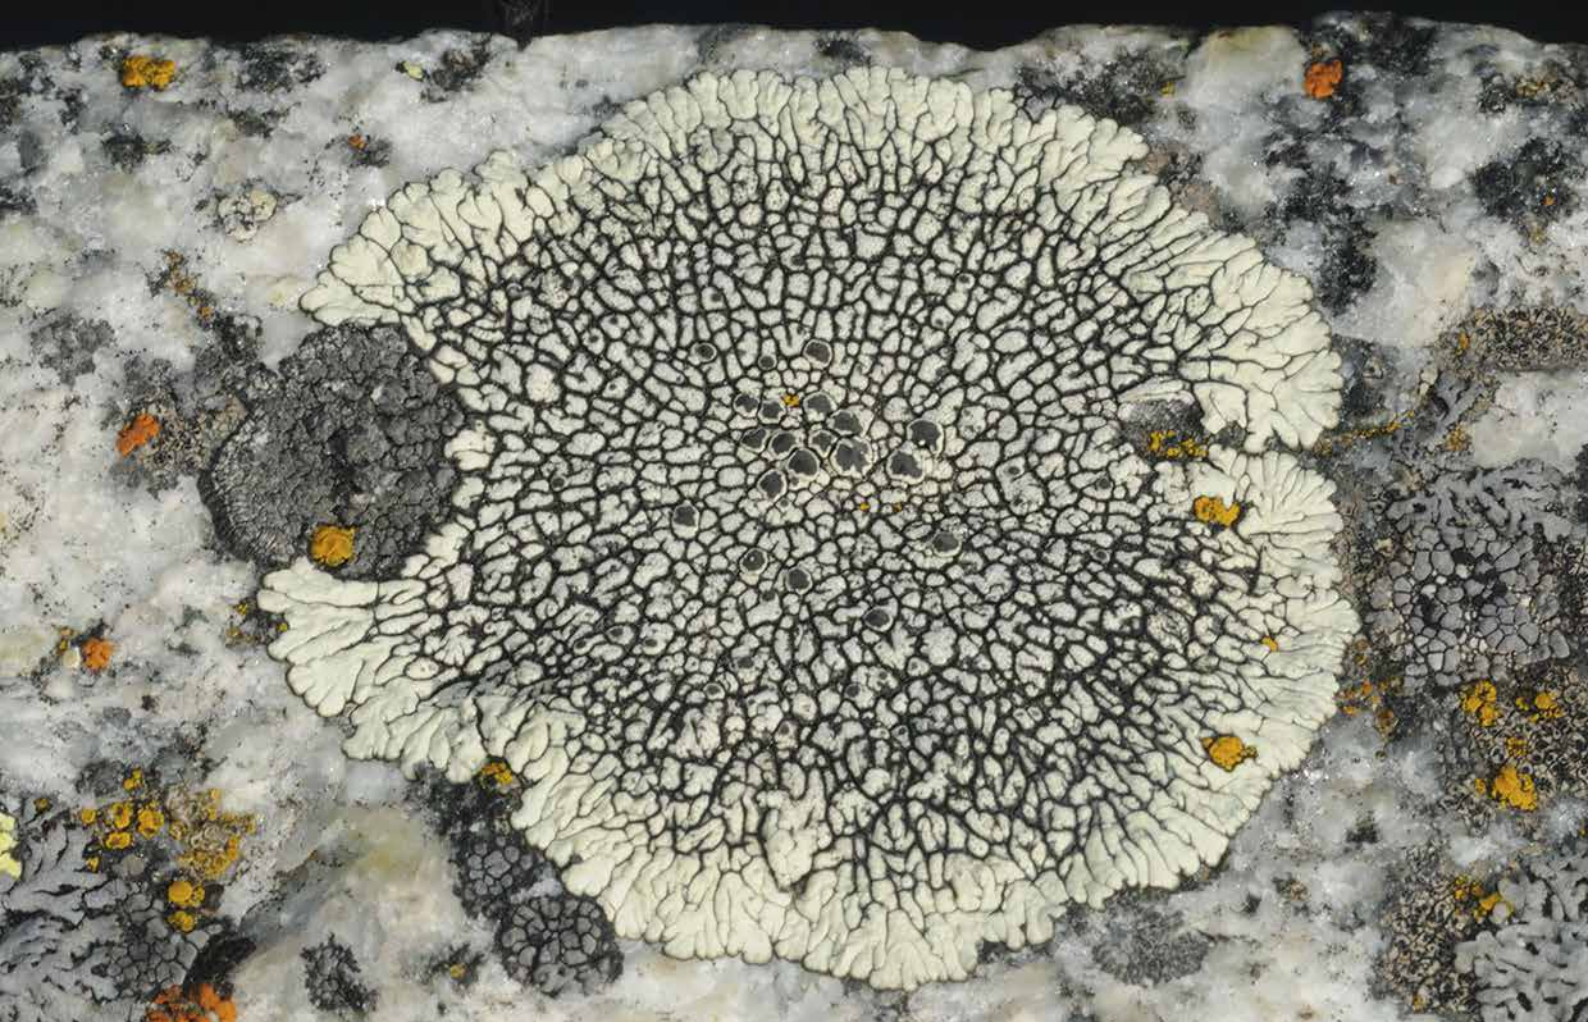

Cladonia rangiferina

Dermatocarpon rivulorum

Dibaeis roseus

Dimelaena oreina

Ephebe lanata

Flavocetraria cucullata (links) und Flavocetraria nivalis (rechts)

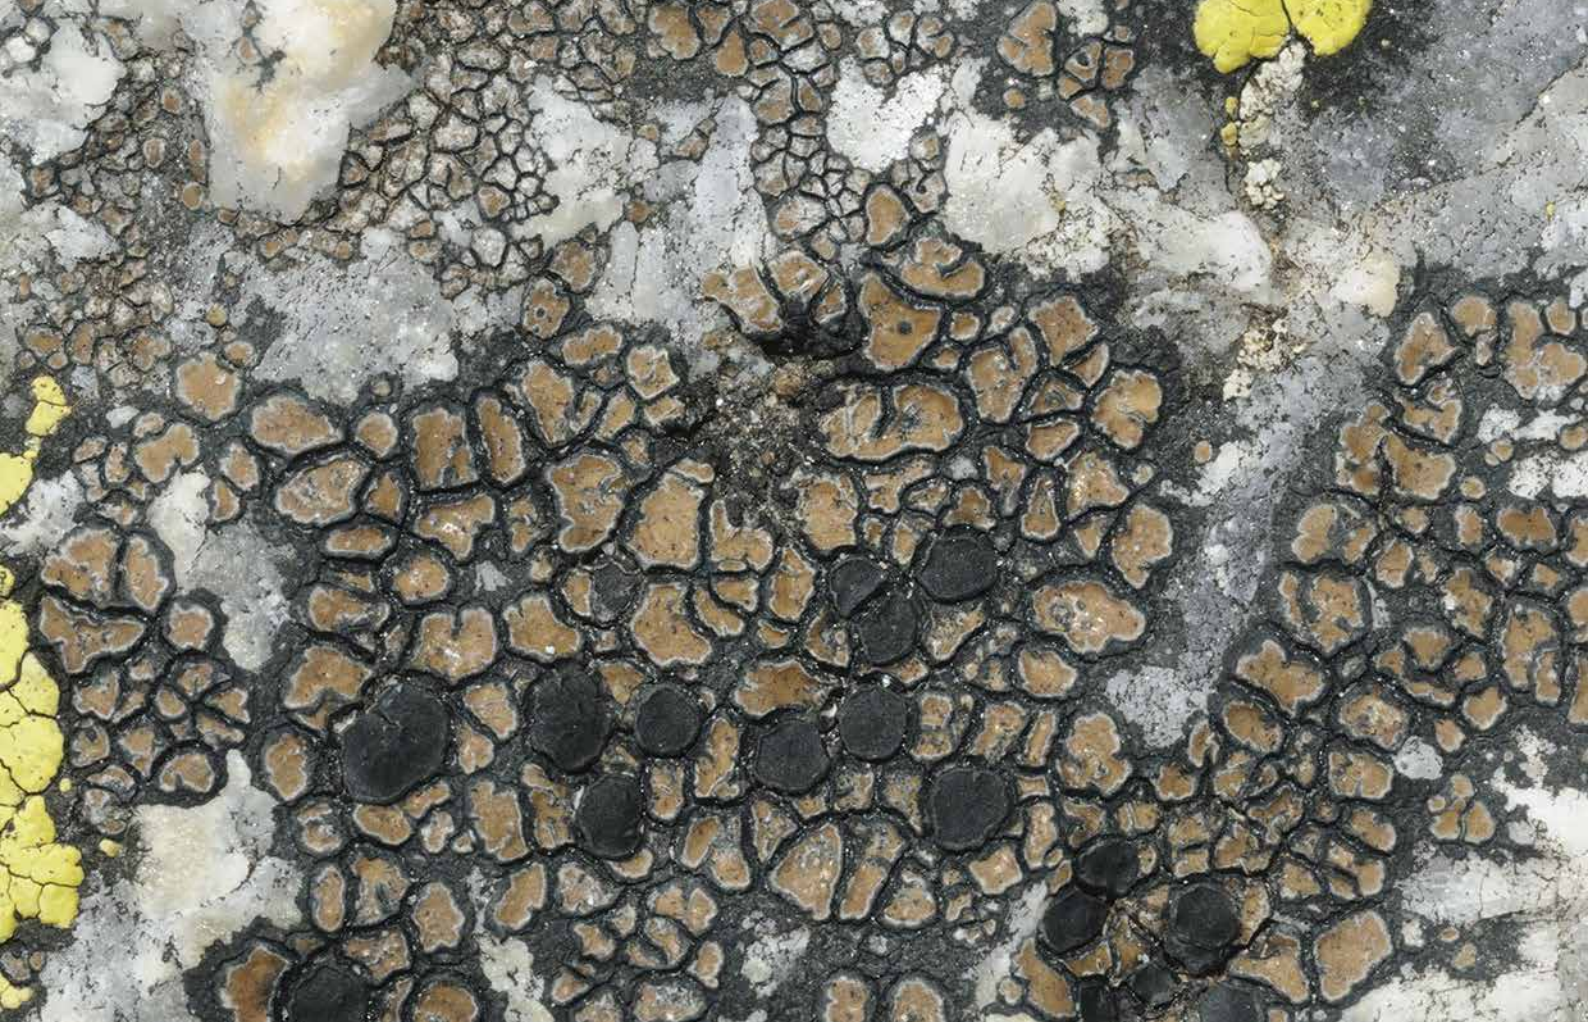

Gyalecta foveolaris

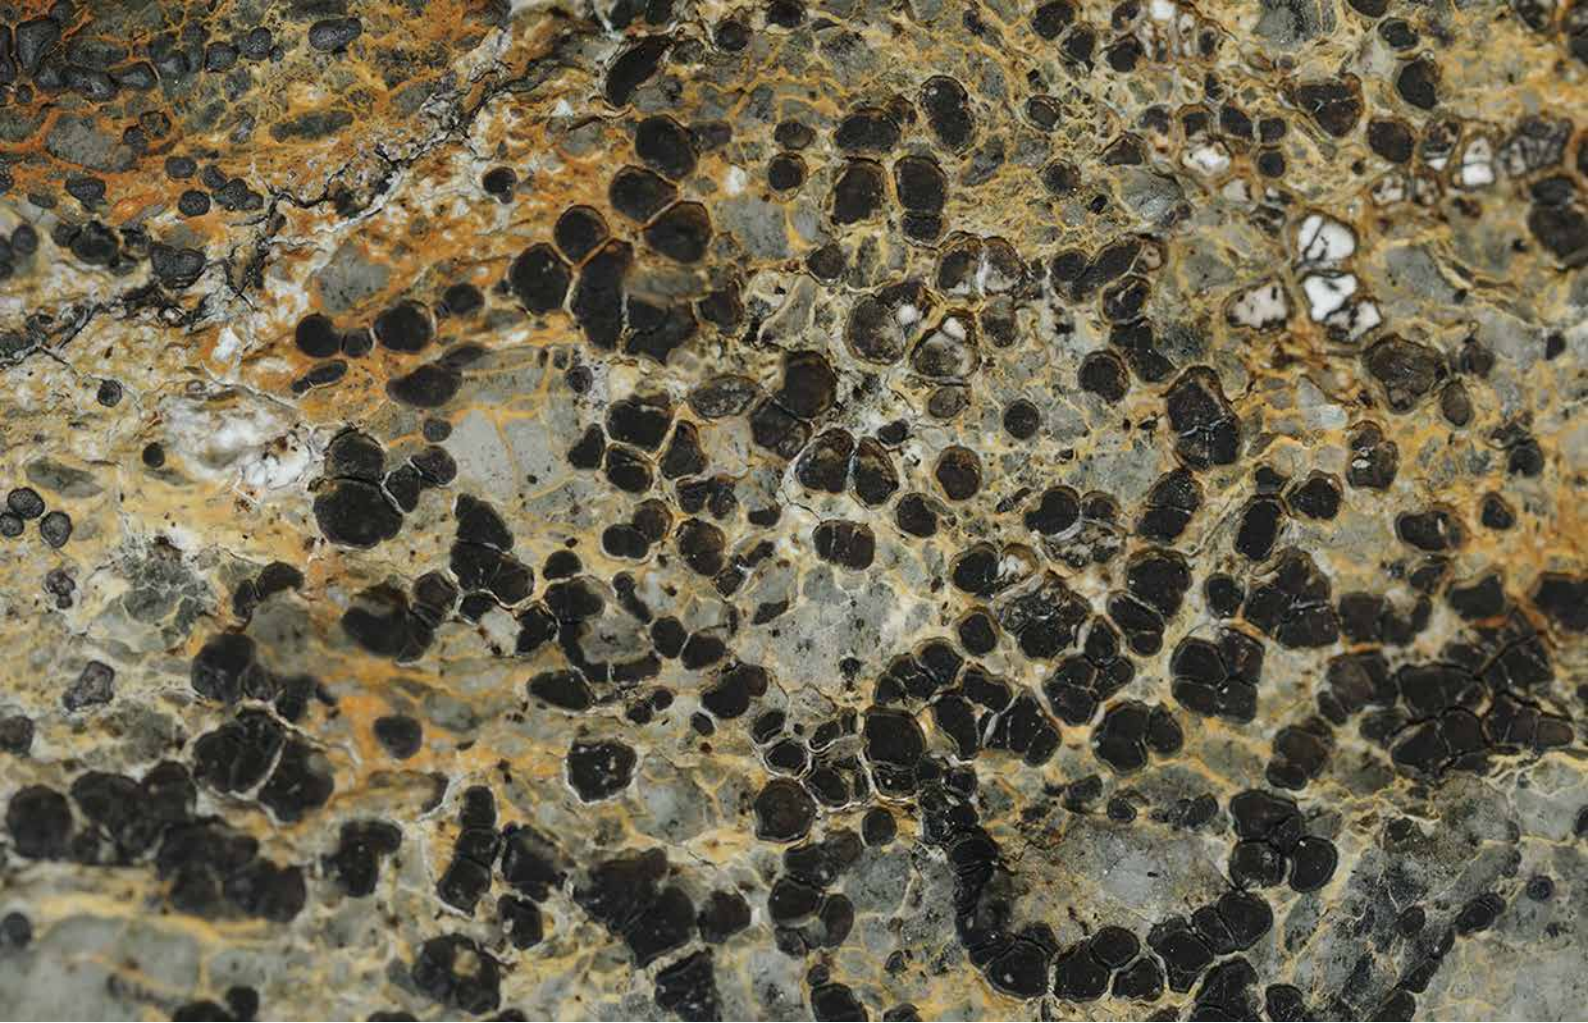

Hymenelia odora

Hymenelia odora

Lecidea fuscoatra

Lecidea lithophila

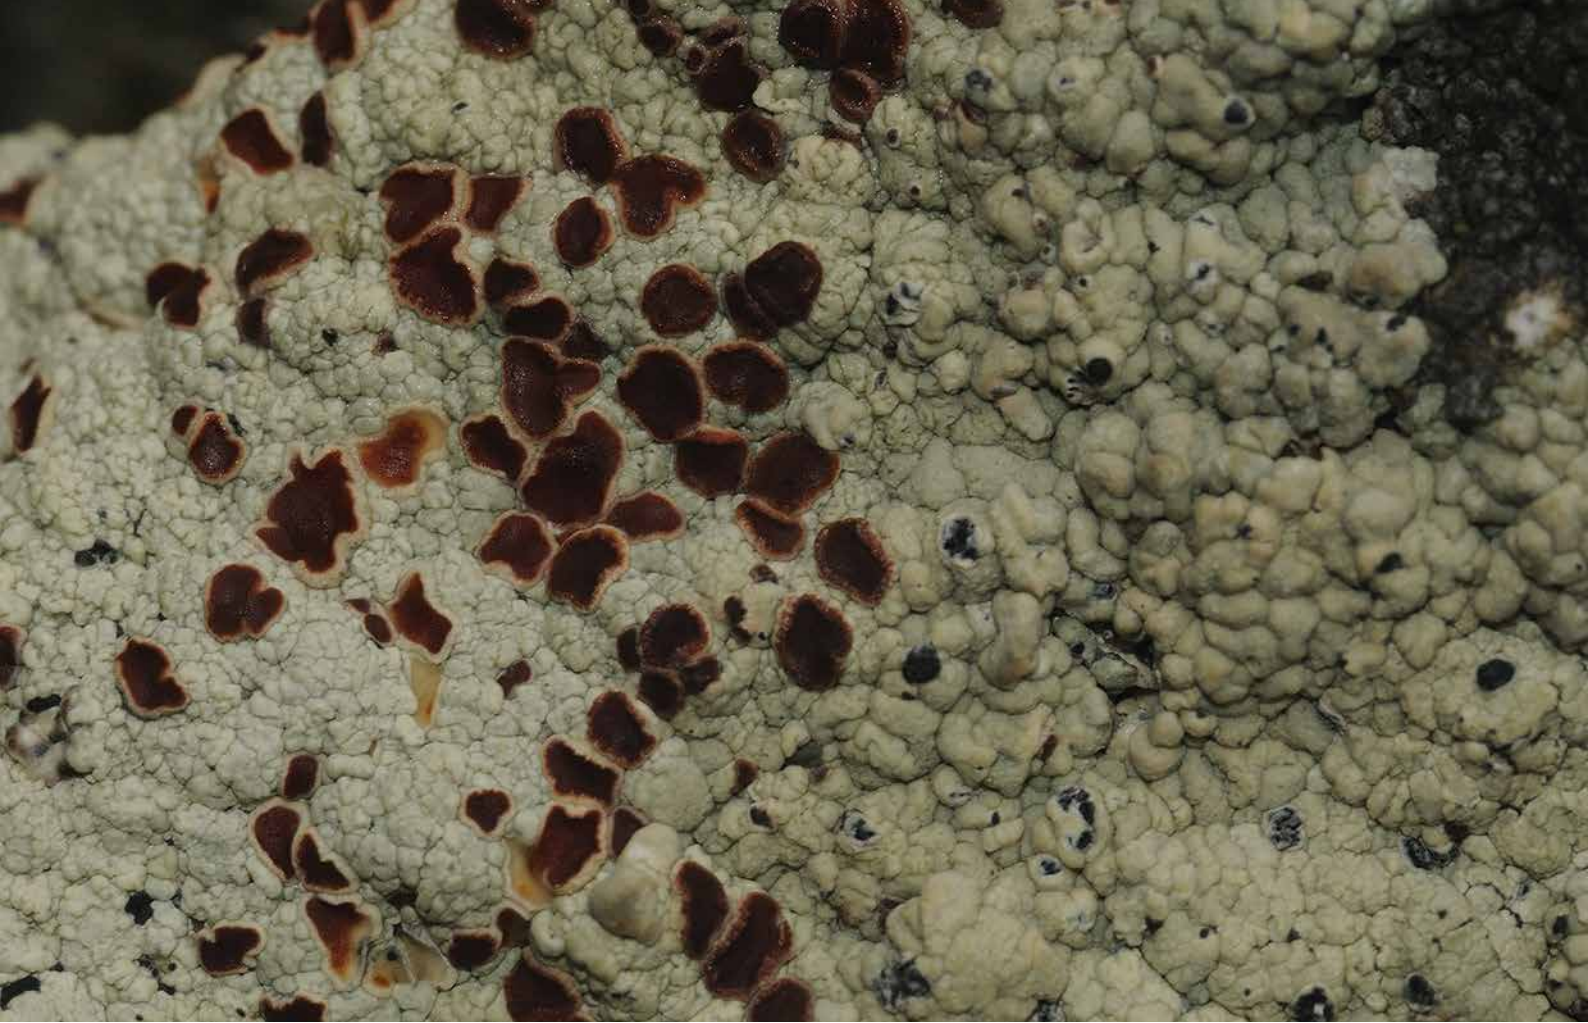

Lecidea promiscens

Lecidea tessellata

Melanelia hepatizon

Ophioparma ventosa

Orphniospora mosigii

Pertusaria oculata

Physcia caesia

Porpidia melinodes

Porpidia tuberculosa

Protoblastenia terricola

Protothelenella sphinctrinoides

Pseudephebe minuscula

Rhizocarpon geminatum

Rhizocarpon geographicum

Rhizocarpon geographicum Windheide

Rhizocarpon lavatum

Rhizocarpus pusillum

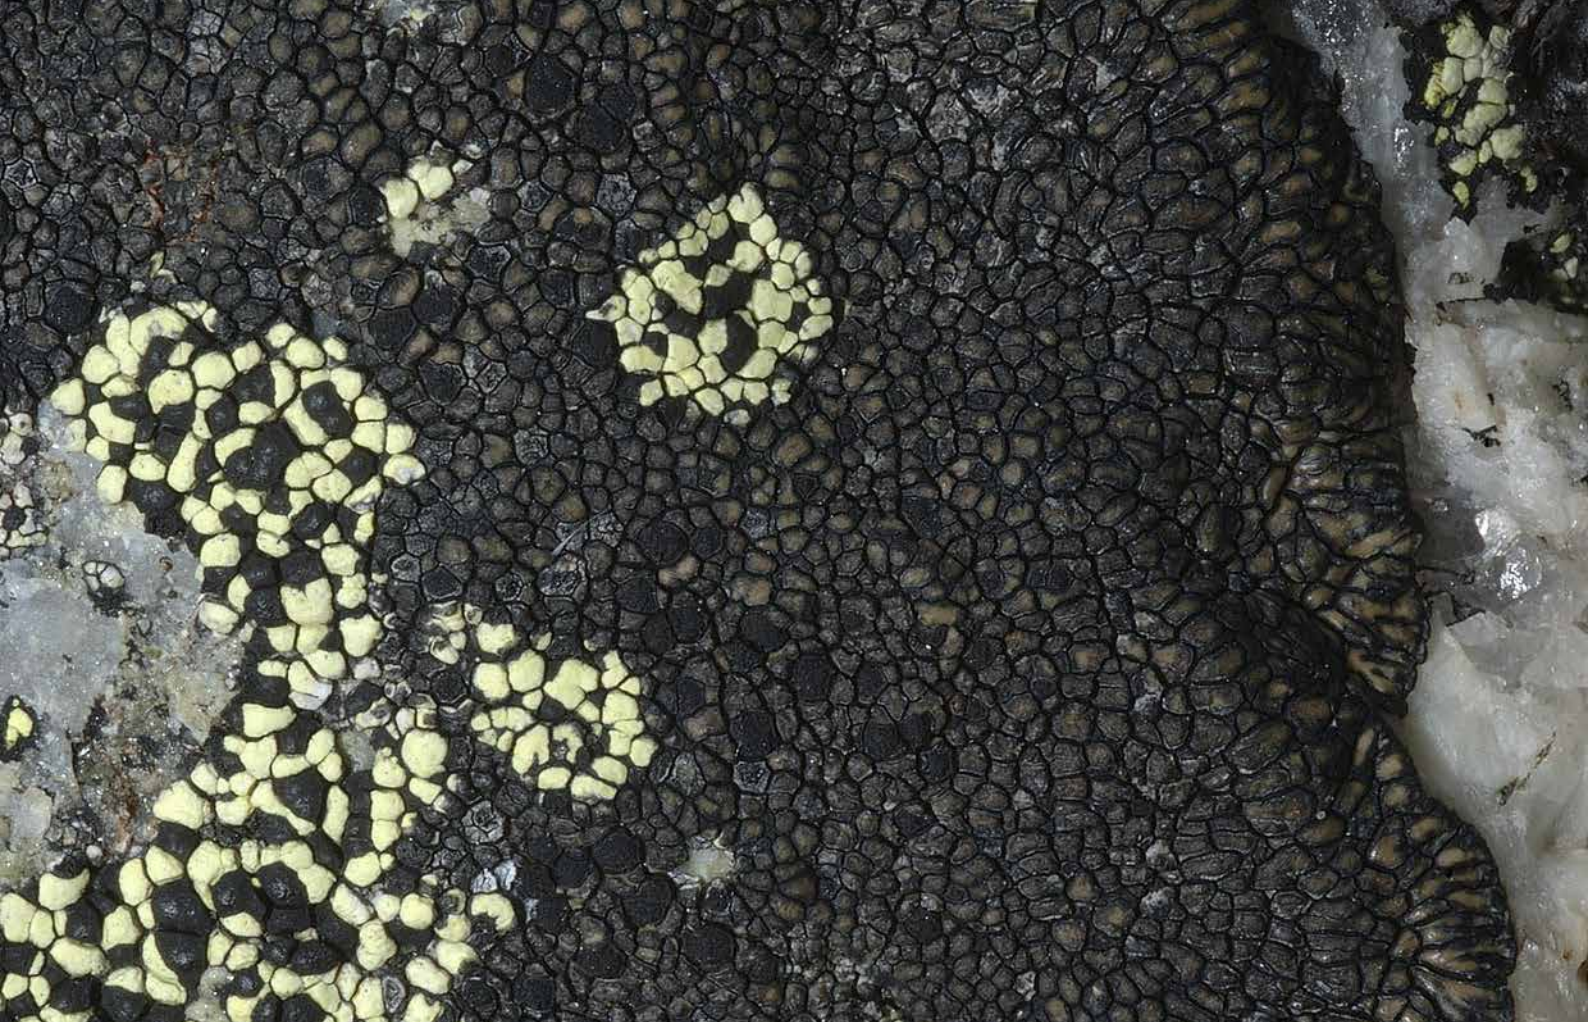

Rhizoplaca chrysophthalma

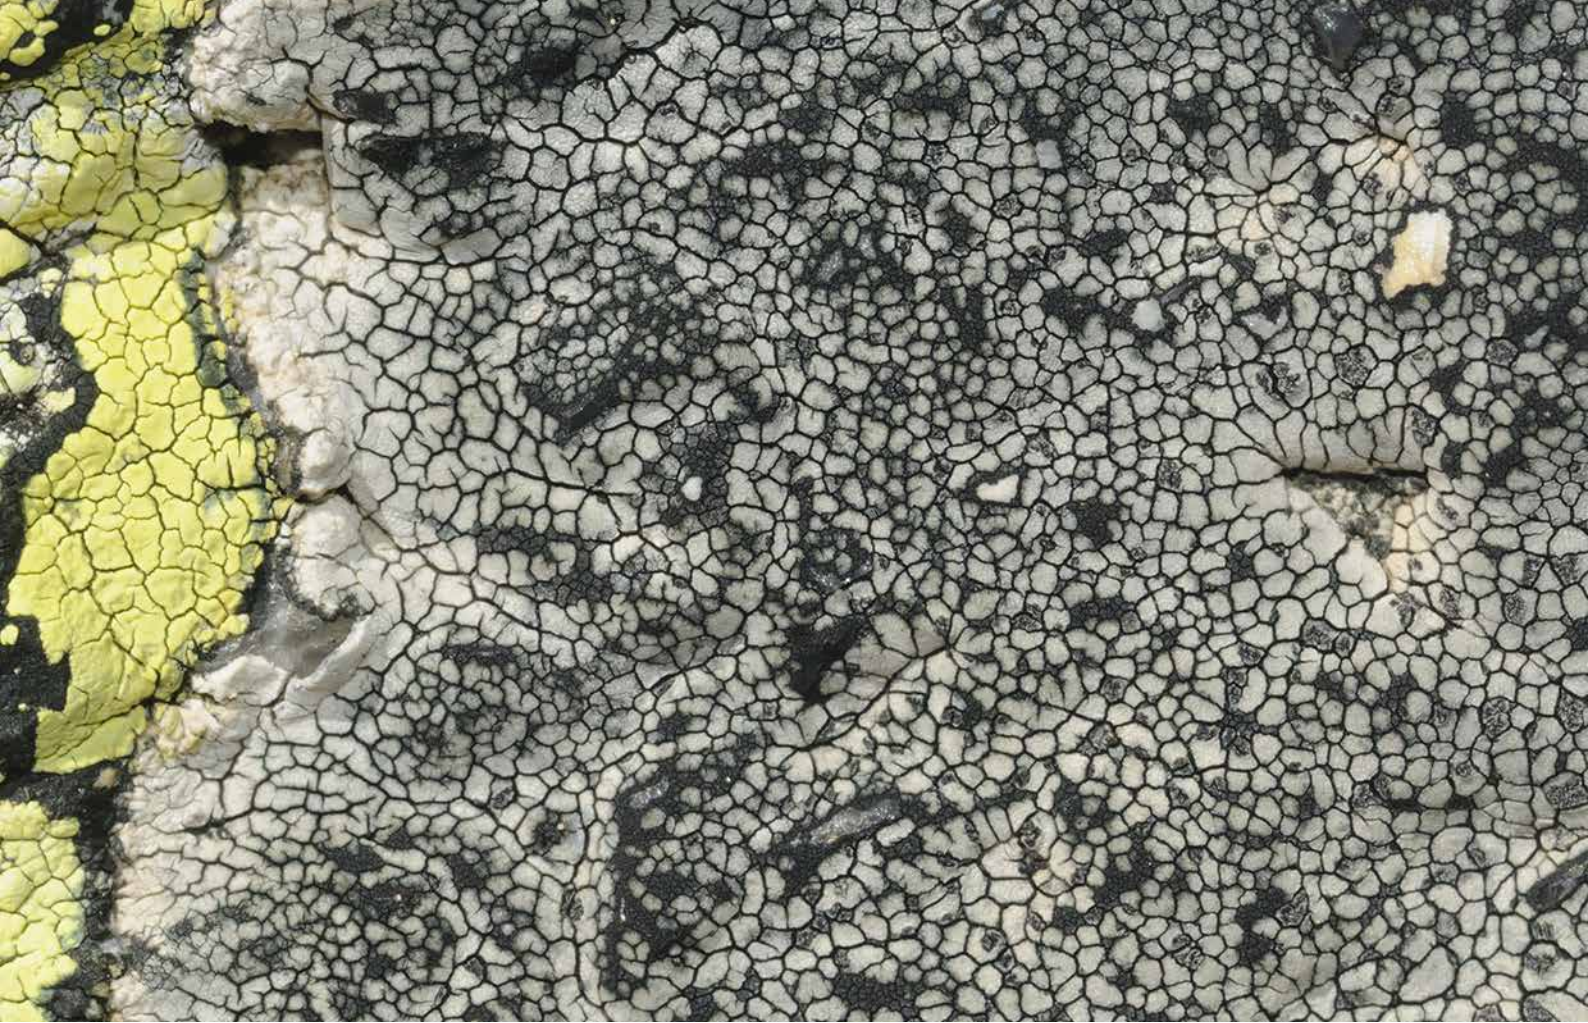

Schaererie fuscocinerea (links) und Buellia miriquidica (rechts)

Solorina crocea

Sporastatia testudinea

Sporastatia polyspora

Stereocaulon alpinum

Thamnolia vermicularis

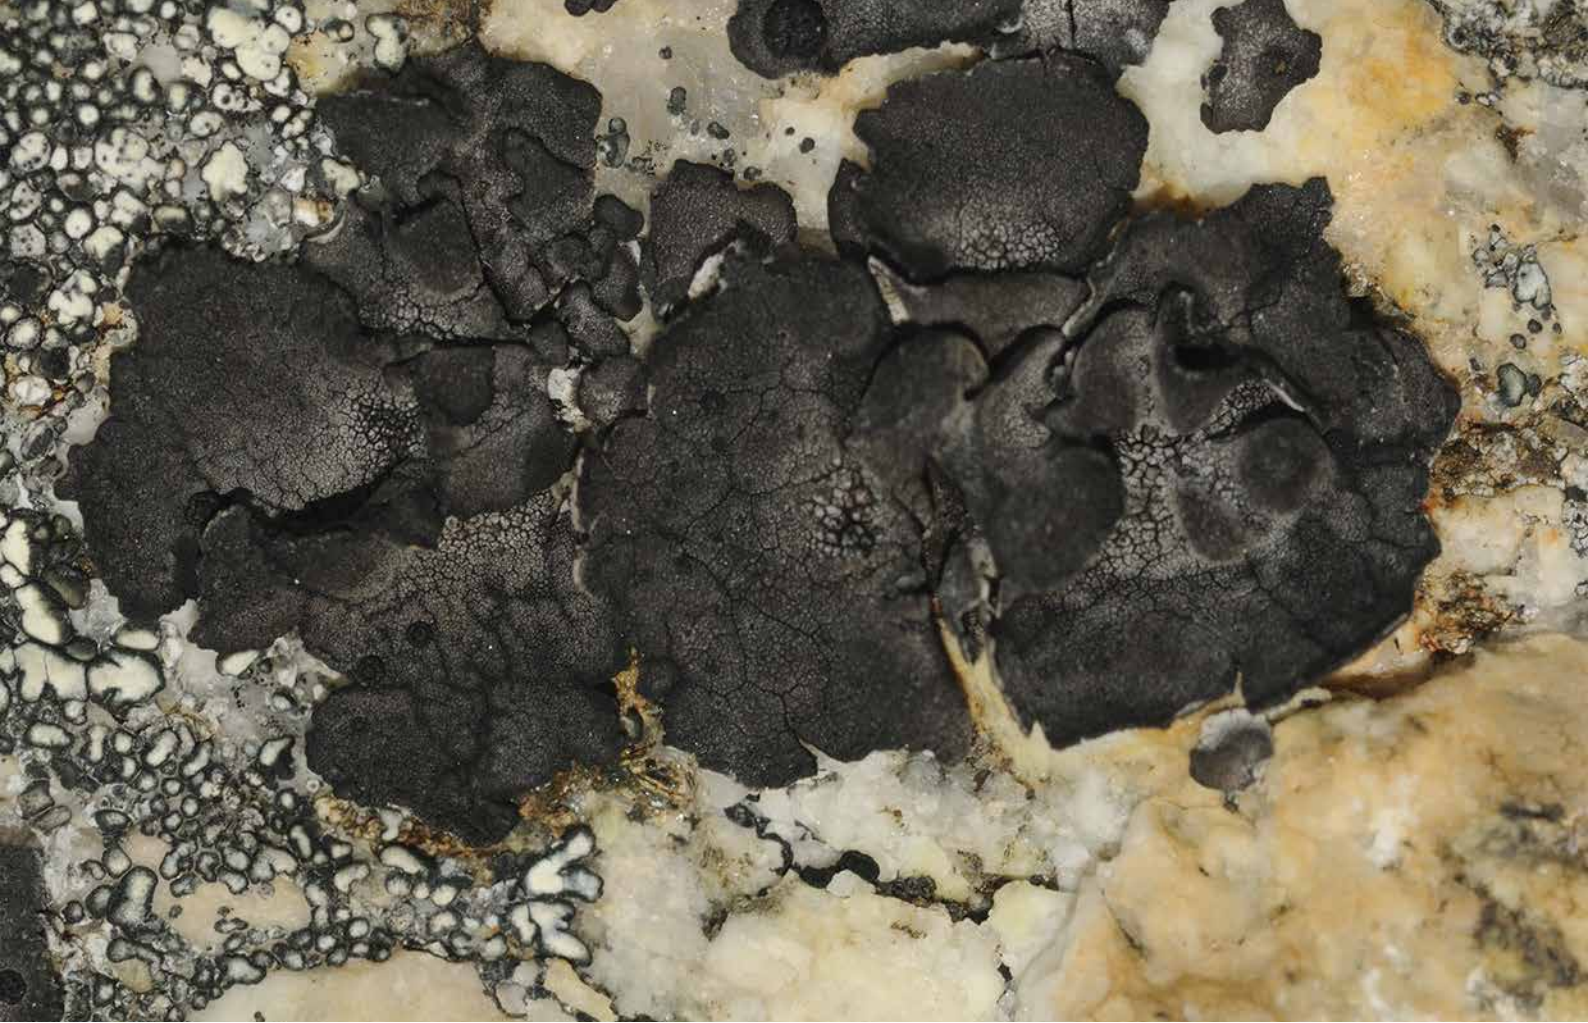

Umbilicaria cylindrica

Umbilicaria decussata

Umbilicaria deusta

Umbilicaria rubelliana

Umbilicaria subglabra

Umbilicaria virginis

Vulpicida tubulosus
